Node, Npm, GCP, Git, Github, Jira, Vercel, Heroku, Docker, Webpack, Figma, Shopify.

### Databases:

PostgreSQL(RDBMS), MongoDB.

### Methodologies & Concepts:

Agile Methodology, Scrum.  
Software Development Cycle (SDLC).  
Testing and debugging.  
Technical Documentation.  
SOLID principles.  
Object-Oriented Programming.  
Problem Solving.  
Team Collaboration.  
API Design.

## EXPERIENCE

### Software Engineer

Mend Telehealth | Remote

April 2021 - 2024

- Helped manage fast-paced software delivery model from within complex development ecosystem.
- Completed new development work and updates using multiple programming languages.
- Designed, tested, and debugged applications from foundation to full production.
- Managed backend server logic protocols and database connections.
- Integrated third-party APIs into client websites for enhanced functionality.
- Utilized version control systems like Git to maintain code repositories and collaborate with team members.
- Participated in agile development methodologies such as Scrum or Kanban for efficient project management.

### Software Engineering Manager

Mevys | Miami, FL Remote

April 2018 - 2022

- Collaborated and coordinated with cross-functional teams to ensure seamless integration of software components.
- Provided architectural design and development of the online store, to assure a clean experience and functional requirements.
- Participated in brainstorming sessions to generate new ideas for features or content expansions.

## EDUCATION

### M001: MongoDB

MongoDB University

April 2023

### Engineer Immersion Program – Computer Science.

Thinkful, Remote

Graduated with 97%, beyond standard.

March 2021

### Musicology – Music

Pontifical Xaverian University, Colombia.

June 2016
